Dear Mr. Sullivan:

Please feel free to use this letter to inform the Arizona Corporation Commission that The Phoenix Zoo has been working with Mesquite Power & Semptra Energy on potential uses for land they have acquired in Arizona. The Zoo is collaborating on potential uses that advance conservation of native ecologies.

The Zoo has proposed several projects for consideration and is currently collaborating with you on developing preliminary drawings, estimated construction costs and potential personnel costs for these projects.

Sincerely,

Jeff Williamson
Executive Director
